## SUMMARY

Working Student - Innovation Management |M.Sc. Management & Engineering (TIME) student at RWTH Aachen, comparable to Industrial Engineering, and Mechanical Engineer (Honours in Electric Vehicles) with two years of full-time supply chain and operations experience. Built a trend radar for a machine builder and co-developed an AI-supported prototype presented to the CEO. Experienced in implementing digital tools, structured processes, generative AI workflows, and creating documentation, standards, and training materials. Daily user of Claude, ChatGPT, and Gemini; proficient in advanced Excel, PowerPoint, and Power BI. Seeking a working student role in innovation management. English C2, German C1.

## EDUCATION

**RWTH Aachen University / RWTH Business School** 10/2025 – Present | Aachen, Germany
*M.Sc. Management & Engineering: Technology, Innovation, Marketing & Entrepreneurship (TIME)*
- Comparable to Industrial Engineering. Current grade 2.0 (good; German scale, 1.0 = best). Selected grades: Digital Marketing 1.0, Qualitative Research Methods 1.3, Innovation Project Management 1.7, Shaping Deep-Tech Start-Ups 1.7.

**Modern Education Society's College of Engineering, Savitribai Phule Pune University** 08/2020 – 05/2023 | Pune, India
*B.E. Mechanical Engineering: Honours in Electric Vehicles*
- CGPA 8.58/10 (First Class with Distinction).

## PROFESSIONAL EXPERIENCE

**Agarwal Packers and Movers Ltd.,** *Supply Chain and Technology Engineer (full-time)* 06/2023 – 06/2025 | Pune, India
- Implemented an end-to-end Power Automate workflow for the manual weekly reporting of 10 clients (file download, data cleaning, email approval, automatic filing), cutting manual effort from 2 hours to 30 minutes per week.
- Developed, maintained and standardised the weekly KPI reporting and Excel dashboards across three zones, which management relied on for decisions.
- Analysed delivery-performance data to identify the suppliers driving delays, improving on-time delivery by 20%.
- Led and trained an ~80-person team across three zones; prepared reports, presentations and training materials for management and clients.
- Evaluated 15+ suppliers on quality, cost and reliability, negotiated contracts, pricing and terms, and managed the supply chain budget.

**Mahindra & Mahindra Ltd.,** *Operations Intern, TCF Projects (Automotive Division)* 05/2022 – 06/2022 | Chakan (Pune), India
- Analysed and validated assembly-line balance for the Z101 production programme (station utilisation vs. takt time, cycle times) and documented end-to-end assembly workflows.

**Enactus Aachen e.V.,** *Marketing & Events (student social entrepreneurship organisation)* 12/2025 – 05/2026 | Aachen, Germany
- Ran marketing and promotional campaigns for 3+ events and developed a content strategy to grow engagement within a cross-cultural team.

## SELECTED PROJECTS

**Poppe + Potthoff Maschinenbau: Service Innovation Project,** *Innovation project, RWTH Aachen* 2026
- Evaluated three app concepts, then co-developed an AI-supported predictive-maintenance app with AI-assisted coding and presented it to the company's CEO: it detects machine failures, classifies their severity and routes technicians to on-site service or remote diagnosis.
- Built a trend radar and analysed technology trends (PESTEL, impact chains, Business Model Canvas, Jobs-to-be-Done) to define a repeatable after-sales service business with a technician-knowledge-capture model.
- Coordinated the project: tracked deliverables, maintained the risk list and status reports, and prepared, led and documented workshops.

**Hermes: Digital Ecosystem for Last-Mile Delivery,** *Building Digital Ecosystems, RWTH Aachen* 2026
- Evaluated technology use cases with a weighted decision matrix, timed adoption with a technology S-curve, and planned a staged pilot with go/no-go gates across hardware, device-management and mapping partners.

**AI in Higher Education: Qualitative Research Study,** *Qualitative Research Methods, RWTH Aachen* 2026
- Designed a qualitative study (grade 1.3) on how students adopt, trust and ethically use AI tools: research design, concept map and semi-structured interview guide, with purposive sampling of seven RWTH Business School students.

**Understory.tv: Production Workflow with Generative AI Tools,** *Digital Marketing, RWTH Aachen* 05/2026 – Present
- Tested and introduced generative AI tools into a repeatable production workflow, co-producing 24 short-form videos with SMV Motorsport Verein Aachen and TechLabs, and analysed engagement data.

## CORE SKILLS

**Innovation & Trend Management:** Trend radar, technology and trend analysis, evaluation of ideas and use cases (weighted decision matrix, go/no-go gates), Business Model Canvas, Jobs-to-be-Done, PESTEL, roadmapping
**Digital Tools & AI:** Implementation of new tools and workflows (Power Automate), testing and introducing generative AI tools, process automation, KPI reporting and dashboards, data analysis
**Processes, Standards & Documentation:** Structured processes, standardised reporting, process documentation, training materials, workshop preparation and follow-up, status reporting, risk lists, cross-unit and cross-cultural stakeholder coordination

## IT SKILLS

**Software:** MS 365: Excel (advanced), PowerPoint, Word, Outlook; Power BI; Power Automate; AI tools: Claude (incl. AI-assisted coding), ChatGPT, Gemini; Canva

## LANGUAGES

**German:** C1, **English:** C2 (fluent)

## CERTIFICATES

**Google Project Management:** Google (2024), **Supply Chain Digitization:** IIM Ahmedabad (2025), **PLM, Value Chain & Smart Factory (Industry 4.0):** IIM Ahmedabad (2025), **Business Analytics:** Internshala (2023)
